The Oldsmobile "88"

Wide-set ovals house headlamps, parking-driving lights. Intake scoop cools front brakes.

Instruments rest in floating strut; functional air-and-speaker grille is forward and separate.

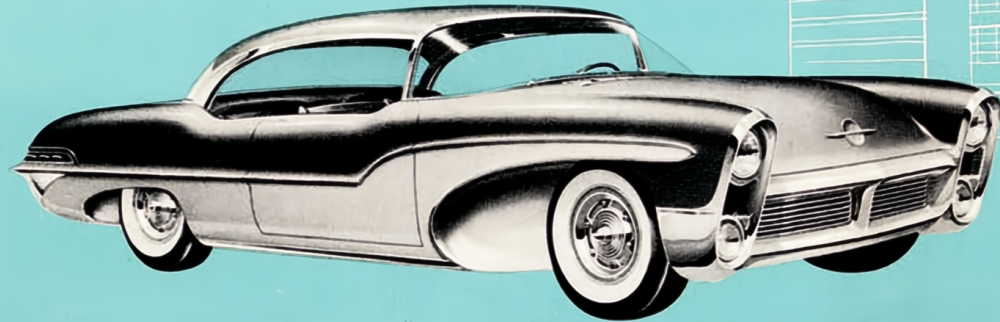

Dual exhaust stacks, flanking spare-tire-access door, serve as bumper guards. Wrap-around taillights accent fleetness.

Interior, in tones of blue, has four bucket seats. Rear arm rest contains storage space, window controls.

delta

Once again from Oldsmobile comes a daring new experimental design—the Oldsmobile "88" Delta, with sedan spaciousness in a hardtop only 53" high! Frankly an excursion beyond tomorrow, it may well be a prediction of things to come!
